Bohaddarhat, Chittagong,

## Career Objective:

As a budding React developer, I aim to master fundamental concepts, design compelling websites, and evolve into a proficient coder. Through hands-on projects, I seek to gain practical experience, enhance problem-solving skills, and contribute to developing engaging, user-friendly web applications.

## Skills:

- **Frontend:** HTML, CSS, Tailwind, Bootstrap, JavaScript, React
- **Backend:** MongoDB, Express
- **Cloud Services:** Firebase, Netlify, Vercel
- **Version Control:** Git & GitHub
- **Design:** Figma
- **Languages:** Bangla (Native), English (Fluent), Hindi (Fluent)

## Projects:

### 1. Advanced Survey Sift

- Streamlined job search and hiring process through a responsive online marketplace.
- Secure account creation, personalized user experience, and detailed job postings.
- Bidding system for job seekers, allowing specification of amounts and deadlines.

### 3. Brand Shop

[Live Link](#) | [Client Code](#) | [Server Code](#)

- Seamless and secure online shopping experience prioritizing user convenience.
- Secure account creation, admin product upload, and comprehensive catalog management.
- User-friendly cart with convenient item removal and persistent storage.

## Education:

Bachelor of Arts (BA)

- Government Hazi Mohammad Mohsin College, Chittagong
- Group: ARTS | GPA: Running | Session: 2022-2023
